

2007-08 DI Team Challenge Previews!

Challenge A: *Obstacles, Of*

Course!

Focus:

Technical Design and Construction, Innovation and Design Process, Mathematics, Experimentation, Theater Arts, Teamwork

The Destination:

Where This Challenge Will Take You!

Young or old, big or small, we all face obstacles in everyday life. Things are always getting in our way! Overcoming these obstacles, and how we do it, helps all of us grow and reach our goals. To solve this Challenge, your team's vehicle will need to go over, under, around and through obstacles that it encounters on its path. Calculate carefully: your final score will depend on the choices your team makes – to overcome obstacles, of course! It's all up to YOU!

Points of Interest! Your team will:

- Design and construct an Obstacle Course, with from three to ten different Obstacles.
- Design and construct a Vehicle that will travel the Obstacle Course. The Vehicle will score points for the number of Obstacles successfully Overcome.
- Create an original, non-verbal Story about overcoming obstacle(s). The appearance of the Obstacle Course should be linked to the Story's theme.
- Create two *Side Trips* and integrate them into the Presentation.

Challenge B: *Hit or Myth*

Focus:

Science, Theater Arts, Research, Teamwork, International Studies

The Destination:

Where This Challenge Will Take You

Is there really a Loch Ness Monster? Is it possible to stop a shark attack by punching the shark in the nose? If Rapunzel really "let down her hair" could someone actually climb up her hair into a tower? Myths, folk tales and urban legends exist in many nations around the world. How do we know whether they're truth or fiction? By using the Scientific Method! So get on your lab coats - now it's your chance to find out, with the help of science, whether it's a Hit or Myth!

Points of Interest! Your team will:

- Create and present a theatrical performance with an original Story about a Myth, Urban Legend or Folk Tale. The Story must be set in a Nation other than the team's own.
- Design and carry out a Myth Investigation that investigates fact(s) about the team's Myth. Present the results of the Investigation as part of your Story.
- Create a Myth-Ecol Replica from the team's chosen Nation, using Recyclable Materials.
- Create two *Side Trips* and integrate them into the Presentation.

Challenge C: *DI've Got a Secret!*

Focus:

Playwriting, Theater Arts (Design, Construction, Costumes and Set Pieces), Optical Physics, Teamwork

The Destination: Where This Challenge Will Take You!

What's my secret? I'll never tell! But your team gets to *tell all*. Nothing is as it seems as your secret unfolds. Sometimes people or things appear to be one thing, but they turn out to be something very different. Your team will turn a secret into great entertainment and dazzle everyone with an optical illusion and set pieces that connect to become part of the big surprise. Will you have the audience on the edge of their seats? Will everyone beg to know more? We'll all have to wait....until your secret is revealed!

Points of Interest! Your team will:

- Create and present a theatrical performance of an original Story about a Secret.
- Create a Masquerade Character that appears to be something or someone until its true identity is revealed.
- Integrate a team-created Optical Illusion into the Story.
- Design and create three Set Pieces that will be connected to form a new Set Piece or Backdrop.
- Create two *Side Trips* and integrate them into the Presentation.

Challenge D: *Chorific!*

Focus:

Improvisational Acting, Story Development, Theater Arts, Teamwork, Sound Design

The Destination: Where This Challenge Will Take You!

It is just a simple, ordinary chore. You've done it a thousand times without a problem. Not this time! Now you have to overcome obstacles, and famous figures of the past and present suddenly appear. With an artful sound design to accompany you on your mission, you must use your keenly honed improv techniques to tackle a chore no longer ordinary, but extraordinary! Only **you** can conquer everything that gets in your way and complete your chore. Only then will you be Chorific!

Points of Interest! Your team will:

- Create a six-minute Improvisational Skit about an ordinary, randomly selected Chore in a 30-minute timed period at the Tournament.
- Attempt to overcome two randomly selected Obstacles, both related to the Chore, in your Skit.
- Create a Sound Design that will be presented live during your Skit.
- Demonstrate one Improvisational Technique during your Skit.
- Integrate a Famous Person, randomly selected from a list of people the team has previously researched, into your Skit.

Challenge E: *SWITCH!*

Focus:

Architectural Design, Structural Engineering, Construction, Research, Innovation and

Design Process, Mathematics, Theater Arts, Teamwork

The Destination: Where This Challenge Will Take You!

Did you ever have to make up your mind? Choose one thing and leave the other behind? Not this time! You *don't* have to make up your mind – you get to try something two different ways! You will test your Structure's strength one way, and then...*SWITCH!* You test your Structure another way. You will also pull some other SWITCHES to show how one item can do different jobs! So get ready - SWITCHING has never been so much fun!

Points of Interest! Your team will:

- Design and build a Structure made completely of Wood and Glue and test it for strength by stacking weights upon it in two different Orientations.
- Have a two-minute Stop Time while the team removes the weights after the first test and places the Structure in a different Orientation for the second test.
- Research a manufactured item, called a *SWITCH!* Item that can serve more than one purpose.
- Create and present a Story in which the team demonstrates two different purposes for the *SWITCH!* Item.
- Present a Freeze-Frame scene as part of the Story during the Stop Time.
- Create two *Side Trips* and integrate them into the Presentation.

Rising Stars!® Challenge: *Twisted History!*

Focus:

Imagining Possibilities, Storytelling, Research, History, Geometric Shapes, Performing in front of an audience, Working with others

The Destination: Where This Challenge Will Take You

Something happened! What was it? In this Challenge you will choose something that really happened and change it. *HiSTORY* with a twist! You will also create a song about it! Then you will use four different shapes to make a magical prop.

With your membership, you receive the full versions of the 2007-8 challenges above, Rules of the Road, Team Manager Guide, Parents Guide, and other valuable information, including:

• **Instant Challenge Pack**

10 Instant Challenges to stretch your team's brains!

Educational Focus: Creative Problem Solving, Time Management, Analyzing Properties of Materials, Teamwork

• **Charting Your Course**

Build better teams with these Challenge-related activities
Educational Focus: Creative Problem Solving, Time Management, Theater Arts, Presentation Skills, Teamwork
